SCHEDULE: If you have a schedule or order of events, we would appreciate a copy asap.

THE RECORDING THE RECORDING

A wedding or live event is a one shot event. There are no second takes.

While we will strive to preserve your event in the most complete an accurate way possible A+ Computer & Electronics Repair - Video Services also referred to as Videographer cannot be held responsible for lost or missing events, audio or "footage" be it due to technical difficulties or force majeure. Lighting: We have no control over venue lighting and have no control during a live event for correction. Lighting can affect color and focus. Audio: Our microphones picks up what is there. We have no control of the audio at the event. We are not responsible for ambient or background conversations or noise, poor or unintelligible speech or audio or any venue sound conditions or volume. Shots: The client may present a list of suggested shots, but A+ Computer & Electronic Repair -Video Services is unable to guarantee that those suggested shots will be captured. We will make every effort to remind you throughout the event our need to capture footage, but you hold yourself responsible for time scheduling and planning. It is assumed that you have watched at least one of our available highlight video's and are making your choice to hire us based on that. What we see during editing may not be what you think you will see. Understand no one sees the world the same. It is your responsibility to express your expectations of the final results to us before signing this agreement.

Limits of liability: The entire liability of A+ Computer & Electronic Repair -Video Services to the Client for any claim or loss arising from our performance is limited to a refund to the Client of the amount paid for services. In the unlikely event that all the originals are lost, stolen, damaged or destroyed within or beyond Videographers control, Videographers liability is limited to the refund of all payments received. Because a wedding is an uncontrolled event Videographer cannot guarantee delivery of any specifically requested video(s). The videographer will not be held liable for the finished product or incomplete coverage in the event of tardiness or time restrictions placed on A+ Computer & Electronic Repair -Video Services by Client or any outside vendors and venues including clergy or church restrictions and/or policies on the day of the event. Video capturing any specific moment is not a guaranteed by A+ Computer & Electronic Repair -Video Services and will not be responsible for any missed moments. The client may present a list of suggested shots, but A+ Computer & Electronic Repair -Video Services is unable to guarantee that those suggested shots will be captured. We will make every effort to remind you throughout the event our need to capture footage, but you hold yourself responsible for time scheduling and planning. The limit of liability for partial loss or damage of originals shall be a prorated amount of the total amount, based on the percentage of originals lost or damaged. In the unlikely event of a total equipment failure or cancellation of this contract by either party or in any other circumstance, the liability of one party to the other shall be limited to the total value of the contract. Neither party shall be liable for indirect or consequential loss.

VENUES: Permissions: Some venues have restrictions on where Videographers can set up and where or if they can move. It will be your responsibility to inform us of those rules at least upon arrival to the event. Beforehand is even better. It is the client's responsibility to schedule and receive permission to use various locations for videography, including the wedding and reception locations and any other locations used during the day. If there is a / videographer / photographer's fee at a venue it is the responsibility of the Client to pay this fee unless prior arrangements are made. We are not responsible for missed shots due to venue restrictions.

DATE RESERVATION A non-refundable deposit of 50% of the videography fee and a signed copy of this agreement are required to reserve your date. We will not reserve your Event date until after receipt of the retainer. The remaining balance is due no less than fifteen(15) days before the event date. Videography will not start until this is paid. If this agreement is signed less than thirty(30) days from the wedding date, then all payments are due at signing. You may not transfer the retainer to another party, bridal couple or anyone else without our prior written consent.

CANCELLATION/POSTPONEMENT: Client understands that by entering into this agreement, Videographer is foregoing other Video recording jobs. In the event of a cancellation or postponement of the event by Client, the deposits paid are non-refundable. Deposits are transferable if a date change is necessary and available. Forty-eight hours (48) notice of postponements or cancellations is appreciated. If the event scheduled is canceled for weather or any other reason we retain the deposit. If rescheduled and we are not able to accommodate your new date we will refund the amount paid minus the deposit. If we are not contacted about a venue change, cancellation or rescheduling before we arrive at the contracted venue we can retain all monies paid and owe no product or service. A rescheduling fee may apply if date is available. In the unlikely event of personal illness or other circumstances beyond the control of A+ Computer & Electronic Repair -Video Services, a substitute videographer acceptable to you may be sent to fulfill the obligations of the videographer.

CHANGES TO THIS AGREEMENT: There may be additional charges if changes are made to this agreement. Client may increase the period of Videographer's service on the event date, provided Videographer is available during the time requested. Added expenses resulting from such change, including additional service cost, digital capture costs, and change-related fees will be added on to the final balance and will be paid in full by Client prior to delivery of any products. Client may not decrease the period of Videographer's service on the event date. If the period of Videographer's service is cut short by reason of fire, casualty, death, act of God, weather, event ends early or other cause beyond the control of the parties, Videographer shall still receive and retain the total fees outlined in this Contract.

COOPERATION / Exclusivity: The Client is responsible for the conduct of their guests. Videographer will not tolerate verbal or physical abuse or behavior nor will it share its time or compete with guest videographers for the attention of the subjects. Unchecked guest, venue staff or other vendors conduct that interferes with the videography will seriously affect the quality of the video taken and increase the number of missed opportunities for shots. If the Client is unable to control the guest's, venue staff or other vendors conduct, resulting in an unacceptable degree of misconduct, or damages made to videography equipment because of misconduct, it will result in the early and immediate departure of the videographer. The client understands that in such an occurrence no refunds will be granted and you may be held responsible for damaged equipment. We can not be held responsible for the refusal of client, staff, other vendors or guest who do not wish to be recorded. While we strive to remove all we find we are not responsible for any inappropriate or obscene audio or video that may inadvertently appear in your final product. Additional professional videographers may be employed only with prior written permission from A+ Computer & Electronic Repair -Video Services. Guest Videographers are welcome with one requirement: The videographer will request your intervention if a guest is inhibiting our ability to fully document your wedding.

**RE-EDIT** In the unlikely event that Client is completely dissatisfied with the final results, Videographer will one time and one time only re-edit the video. Request must be made no more than 30 days from shipping date. In most cases re-editing will only allow us to subtract from the video or audio; remove scenes, graphics or audio. Client must have a very specific list of changes, complete with reason for change, times start to finish and details of expected result. Client must return all copies and may be required to pay additional fee to replace the media. Ultimately A+ Video Services decides if edit is possible or not. If not and you insist on videographer making the attempt, additional labor charges of no less than \$200 per day may be charged, one day minimum, in advance. **Audio:** Poor audio of main events (toast etc...) usually has been edited for best results during initial edit and may not be correctable.
